Ways to Access TPE Prior to Deployment

There are two ways to view TPE, you can view using BattleWeb or WebLIDB.

There are a couple of ways to view TPE data via the web:

The easiest, and the most recommend, requires SIPR access. The web address to go to is http://www.swa.arcent.army.smil.mil/staff_sections/C4/Theater_Property_Book_Team/ On that page is a TPE calculator. You click on the UIC of the unit you are falling in on and all their TPE equipment is displayed. It gives you a chance to download it as an excel spreadsheet.
If all you have is NIPR access, you can sign into AKO and go to the Logistics page (click on the Site Map tab at top of page, click on Army Organizations toward the middle and then click on Logistics). Scroll all the way to the bottom of the Logistics page and click on Battleweb in the lower right-hand corner. Directions on how to use BattleWeb can be found at https://lognet.bcks.army.mil/lognet/ev_en.php?ID=6536_-341&ID2=DO_TOPIC.

Or you can use LIDB to find the TPE. The directions on how to use LIDB to find TPE are at https://lognet.bcks.army.mil/lognet/ev_en.php?ID=6674_-341&ID2=DO_TOPIC.
